

## LEPC Training Resources Guide

---

The Indiana Emergency Response Commission requires through IC-6-6-10-5 that LEPC funds provided by that statute may be used for training "only if the local emergency planning committee has received approval for the training programs from the emergency response commission". The training opportunities listed below are deemed by the IERC to be of sufficiently high quality to make them eligible for payment with IC-6-6-10 funds. (Courses/classes are preceded by an asterisk \*.) This conditional approval of programs does not warrant the efficacy of particular training for particular persons, and the IERC cannot be responsible for particular training outcomes.

The IERC solicits feedback from LEPC members regarding any training taken from the listed programs, and will consider adding other training which is brought to the IERC's attention. The IERC will also consider delisting providers or programs based on information provided by LEPCs. Please submit written requests to add or remove programs to the IERC Training Committee, Indiana Government Center South, 302 West Washington Street, Room E208, Indianapolis, IN 46204-2760. You may also telephone questions or comments to IERC staff at (317) 232-3837.

---
